Ali Kaabi

Transformation and Consulting Executive | Practice Growth and P&L | Enterprise Transformation | Board Advisory

Sydney NSW | 0433 113 933 | Kaabi.au@gmail.com | linkedin.com/in/alikaabi | kaabia79.github.io

PROFILE

I build and run the functions that organisations rely on to change, and I have done it in three settings: inside vendor professional services at Fujitsu, MSC Mobility, The Missing Link and Macquarie Government; as the executive accountable for transformation inside OneSteel, Seven West Media and Secure Parking; and as a consulting director at Rohling. The pattern is the same in each. Make the commercial truth visible, put a number on it that someone owns, then build the method, governance and team around it.

Over twenty years that has meant a $35M+ federal government practice built from nothing, five consulting practices built or rebuilt, an executive Investment Committee created and chaired across 25+ P&Ls, enterprise systems delivered across media, parking, industrial and care, and most recently a consulting firm's AI practice founded from scratch. I have worked across government, telecommunications, media, industrial, retail services, and aged care and disability, and I lecture postgraduate project risk, procurement and quality at UTS.

TRACK RECORD

$35M+
Practice P&L built from a standing start in under two years, 22% over gross profit target

5
Consulting practices built or rebuilt, each with a P&L I owned

25+ P&Ls
Governed through the executive Investment Committee I created and chaired

42% to 79%
On-time and on-budget delivery across 87 concurrent APAC projects

60% to 90%
Project failure to success, with profitability

30+
Consultants, engineers and architects hired and developed across Sydney and Canberra

WHAT I DO

- **Grow a practice and own its number.** Macquarie Government practice from zero to $35M+ P&L, 350% growth, 125% of revenue target. MSC services revenue up 75% with a further 250% from a vendor partnership I built. First services catalogue and tender governance at The Missing Link, which lifted win rate.
- **Sell and sponsor transformation at executive and board level.** Pre-sales, business cases, executive workshops and board presentations for multi-year programs at Rohling, then sponsorship through delivery. Led strategy engagements, maturity assessments and RFPs that selected SaaS platforms and implementation partners for providers (Dynamics 365, Salesforce, HubSpot, UKG). Created and chaired the Secure Parking Investment Committee, reporting to the Japan-appointed Executive Director. Recognised twice by the ATO for portfolio delivery.
- **Run large transformation programs.** Program Director on a seven-workstream enterprise program (finance, payroll, procurement, risk, CRM, clinical, assets). TechnologyOne, HRIS, Office 365 and workforce management across the Seven Network. Dynamics, HRIS and TechnologyOne at Secure Parking. 66+ concurrent government projects at Macquarie.
- **Redesign how a function operates.** 70+ FTE offshore operation re-engineered across CX, sales and finance. OneSteel Recycling to ISO 9001 across all sites in 12 months. MSC delivery function rebuilt from 11 to 22 staff with a 30% margin KPI. Rohling's AI-native operating model.
- **Build governance that changes decisions.** First formal PMO at three organisations. Hybrid portfolio methodology on P3O with P3M3 benchmarking. OKR frameworks at two firms. Rebuilt Rohling's resource cost model and found gross margin materially overstated.
- **Lead with AI, responsibly.** Founded Rohling's AI practice: client advisory and governance, internal capability, proprietary IP. Claude adoption integrated with Microsoft 365, SharePoint and Copilot Studio. Governance suite aligned to the Aged Care Act 2024, Privacy Act and NAIC guidance. Podcast guest on enterprise AI adoption.

EXPERIENCE

Oct 2025 to present

Rohling

Advisory and technology services to aged care, disability and community providers. 20 to 25 staff

Director, Client Solutions

Strategy and platform selection. Led strategy engagements for aged care, disability and community clients: maturity assessments and the selection of SaaS platforms and implementation partners across CRM, client and clinical management, enterprise finance, HRIS and sales applications (Dynamics 365, Salesforce, HubSpot, UKG and others). Wrote the board-ready strategy and program business cases, ran vendor selection and vetting, and formed the teams that implement them.

RFPs and business development. Ran RFPs for clients to select the solution and implementation partner, and responded to bids and won work for the firm's delivery teams. Led pre-sales and board presentations. Created the Strategic Delivery Partnership commercial model (fixed-rate, sponsor-backed, outcome-accountable).

Engagement leadership. Program Director and escalation point on a multi-workstream enterprise program (finance, workforce and payroll, procurement, risk, CRM, clinical, property and assets), from business case and board approval through delivery.

Practice and people. Led 17 senior consultants as direct reports and owned resourcing. Introduced the firm's first OKR framework, portfolio reporting standards (PSR, SteerCo) and a consultant development framework. Rebuilt resource costing and true project profitability, correcting a model that had materially overstated margin.

AI practice. Founded the practice on three pillars: client advisory and governance, internal capability, proprietary IP. Architected Claude adoption integrated with Microsoft 365, SharePoint and Copilot Studio. Authored a five-layer AI governance suite aligned to the strengthened Aged Care Quality Standards, Aged Care Act 2024, Privacy Act and NAIC guidance.

Jun 2023 to Oct 2025

Secure Parking

Sydney. Australian subsidiary of Park24, Japan. National network, 25+ P&Ls

Head of Project Management, then Business Transformation Lead

Investment governance. Created and chaired the executive Investment Committee, the monthly forum through which every capital and operating program was approved and held to account. Reported to the Japan-appointed Executive Director and worked directly with head office in Tokyo.

Transformation strategy and results. Defined the FY24/25 roadmap and transformation strategy. National revenue and cost program lifted revenue 2.1% to 6% and cut OPEX 2.5% to 5% through dynamic pricing, digital channels and cost initiatives.

Operating model. Led end-to-end transformation of a 70+ FTE Philippines offshore operation across CX, sales, complaints and finance: 20+ process workshops, future roles and process defined, implementation across process, technology and people with live dashboards and KPI tracking.

Methodology and systems. Established the hybrid portfolio methodology on P3O with P3M3 benchmarking: Agile for product, PMI-based delivery for capital and transformation. Owned RFP, vendor selection and deployment of Microsoft Dynamics, HRIS, the TechnologyOne finance upgrade, and the customer app and website relaunch.

Sep 2021 to May 2023

Macquarie Technology Group

Macquarie Government. Federal and state government clients

Practice Lead, Professional and PMO Services

Practice built from nothing. Established and built out the professional services practice inside the government cyber security account: the consultancy and delivery pods across multiple states, across project services and recurring managed services revenue. $35M+ P&L, 350% growth, 125% of revenue target, 22% over gross profit target.

Clients and portfolio. 66+ concurrent projects for federal and state agencies, including cyber and network security transformation. Recognised twice by the ATO for portfolio delivery, including the Data Centre Portfolio award.

Team and market. Led a team of 30+ consultants, engineers and pre-sales architects across the delivery pods. Launched the professional services framework and government capability statement, and led pre-sales for complex implementations.

Oct 2019 to Sep 2021

The Missing Link

IT and cyber-security professional services

PMO and Solutions Manager

Turnaround. Project outcomes from a 60% failure rate to 90% success and profitability. Established the first formal PMO, governance and OKR framework.

Commercial build. First services catalogue with productised offerings and pricing. Pre-sales governance and tender rules that lifted win rate. Utilisation held above 80%. Finalist, ARN Innovation Awards 2021.

Feb 2016 to Oct 2019

Seven West Media

Seven Network. National media group. Promoted from Solution Delivery Manager

Implementation (PMO) Manager

Enterprise transformation. Led the enterprise transformation submission across HR, payroll and operations: gap analysis, business case, vendor selection and deployment scope. Delivered TechnologyOne Finance, Office 365, HRIS and workforce management across the network, and built the single-source-of-truth portfolio dashboard and delivery Centre of Excellence.

Apr 2013 to Jan 2016

MSC Mobility Solutions

Now Telstra Purple. Promoted from GM Professional Services to Global Practice Lead

Global Practice Lead, Project Services

Transformation and growth. Led the transformation of professional services and built and expanded the practice from 11 to 22 people, with regional PMO branches under one framework, a full project lifecycle, tools and templates, quarterly training across a matrix organisation, and a 30% project margin KPI owned by the project manager with cost and schedule targets set at kick-off.

Results. On-time and on-budget delivery from 42% to 79%. Project success from 30% to 80%. 87 concurrent projects across Australia and APAC. Services revenue up 75%, a further 250% through a strategic vendor partnership.

Sep 2010 to Feb 2013

OneSteel Recycling (Arrium)

National industrial business. Promoted from PMO Project Manager

PMO Program Manager

National PMO. Established the national PMO on PMBOK and P3O, with the portfolio tool used by every regional manager. Operating and capital programs to $30M.

Results. ISO 9001 across head office and regional sites in 12 months. R&D incentive benefits from $350K to $5.5M. Financial health reporting to the CFO.

Jan 2002 to Sep 2010

Fujitsu Australia

National IT services provider. Team Leader, Project Leader, then Project Manager

Project Manager, Regional Accounts Deployment

Portfolio. Nine businesses across Australia, Malaysia, Hong Kong, New Zealand and the UK. Tier-1 accounts including EDS/HP, Commonwealth Bank, Coles Group, Myer, Woolworths, 7-Eleven and AAPT. Teams of up to 25 engineers.

Field services model. Designed the pay-per-task national field services model: $1.4M saved in year one, service call completion up 350%.

EDUCATION AND CREDENTIALS

- **Executive MBA, UTS (Distinction).** Bachelor of Technology (Computer Engineering), Western Sydney University. AICD Company Directors Course completed 2026, examination in progress.
- **PMP; P3O Practitioner; Certified Scrum Master.** Sessional Lecturer at UTS since 2019 (part-time, concurrent): postgraduate Project Risk, Procurement and Quality Management. Finalist, ARN Innovation Awards 2021 (Management Excellence).
